### **Professional History**

Dr. Murphy is Senior Partner of Envirotest, Ltd. In addition to overseeing the strategy and direction of the company, his responsibilities include seeking new opportunities, products and services.

Prior to joining Envirotest, Ltd., Dr. Murphy worked for Amoco, Inc. in a variety of line and management positions over eighteen years. During that time, Dr. Murphy worked in twenty-six countries and spent six years in residence as an overseas manager. He was responsible for projects budgeted up to \$120 million, employing more than 1200 people. As part of his responsibilities as Exploration manager in Burma for 5 years, Dr. Murphy was co-coordinator for Environmental Safety and Health. Additionally, Dr. Murphy spent five years with Tenneco, Inc. as a Special Projects Scientist while working a wide variety of projects in both Alaska and the contiguous forty-eight states.

Prior to his experience with Tenneco, Dr. Murphy served with General Motors in a variety of engineering and supervisory assignments, including oversight of environment, safety and health for a large manufacturing facility. It was during his tenure with General Motors that Dr. Murphy enrolled at SUNY Buffalo and began his graduate education at the old Bell Plant facility under the direction of Dr. Jack King.
