

INTRODUCTORY LAB COORDINATOR
DEPARTMENT OF GEOLOGY, UNIVERSITY AT BUFFALO, SUNY

We invite applications for a staff position that focuses on the coordination of introductory labs and departmental outreach. The successful applicant must have an MS degree in Geosciences or a related area at the time of appointment (PhD preferred). Required experience includes demonstrated interest in and aptitude for teaching, demonstrated ability to develop laboratory exercises using current pedagogy, interest in outreach and superior organizational, written and oral communication abilities. Must also be able to bend and lift up to 40 pounds. Position opportunities include advancing pedagogy through attendance at professional meetings, preparation of research grants in support of the department's teaching or outreach goals, and/or mentoring undergraduate students in research and club activities. A complete position description can be found at the UB Jobs website (posting 1100654) and applications must be submitted through this site: <https://www.ubjobs.buffalo.edu/applicants/Central?quickFind=54672>

More information about our department can be found at: www.geology.buffalo.edu.

We request applications by Dec. 12, 2011, but review of applications will continue until the position is filled. The University at Buffalo is an Equal Opportunity Employer/Recruiter.
